Profile

Computer and Software Engineering Student | Ain Shams University
Passionate and skilled in C++, Java, JavaScript, and web development, with a strong foundation in system software development and problem-solving. Hands-on experience in designing and implementing software solutions. Enthusiastic about learning modern technologies and applying engineering principles to build efficient and innovative systems. Actively engaged in coding bootcamps, tech workshops, and extracurricular projects to enhance skills and stay updated with industry trends. Seeking opportunities to contribute and grow in a dynamic tech environment.

Education

Faculty of Engineering Ain Shams   2022 – present
Computer Engineering and Software Systems Program (CESS)   Cairo, Egypt
GPA: 3.12

Languages

Arabic	**English** — Cambridge IGCSE (O Level)	**German** — A1

Certificates

Linux Adminstration
Edges Academy

MEAN stack web development
NTI

ASU Racing Team Certificate of completion
ASU urban Racing Team

Organizations

ASU Racing Team- Technical Powertrain Team
Member
01/2025 – present | Cairo, Egypt

ASU Racing Team- Technical Handling Team
Member
09/2024 – 01/2025 | Cairo, Egypt

Egypt Red Crescent
First Aid learner
2024 | Cairo, Egypt

Projects

Social Media Platform   02/2024 – 05/2024
Using Java and JavaFX

Washing Machine Controller   11/2024 – 12/2024
Using Verilog

Sorting Algorithms Comparator   11/2024 – 12/2024
using python

Python lexical and syntax Analyzer   04/2025 – 05/2025
Using C++

E-commerce App & testing   04/2025 – 05/2025
using java spring and Junit

Ai App rating system   04/2025 – 05/2025
Using Python

Vehicle Rental Database communication app   05/2025
using SQL and C#

Racing Team vehicle Dashboard & cloud   05/2025 – 08/2025
Vehicle statistics Website using HTML, CSS, JS and python

Taskflow Task Manager   07/2025 – 08/2025
using Angular

University management System   10/2025 – 12/2025
Using MERN stack

Reddit Clone   10/2025 – 12/2025
Using MERN stack

IoT-Telemtry Protocol   12/2025 – 2025
Using pyton and socket programming

Heart Disease Detection Model   11/2025 – 02/2026
Using Python sklearn

Thermophysical Property ML Model   01/2026
Machine Learning
